

As of July, 2019, these links to download the datasets have been deprecated. Everything has been moved to the online course platform [teachable](#). You will be able to find there challenges, datasets, and solutions in R and Python.

To access the material, simply send me an email at giulio@datamasked.com saying that you had bought the pdf version of the challenges and you'd like to get access to the new format. Please, use the same email address you used to originally buy the product. I will then manually enroll you.

If you have any questions or any problems, just email me at the address above.
